BulkSMS and WorldPay recurring payment (FuturePay) Guide

Introduction

BulkSMS is currently piloting a system whereby our clients can choose to have the credits on their BulkSMS accounts topped up automatically when their credit level drops below a pre-selected amount. This means that you no longer need to worry about running out of credits on your BulkSMS account.

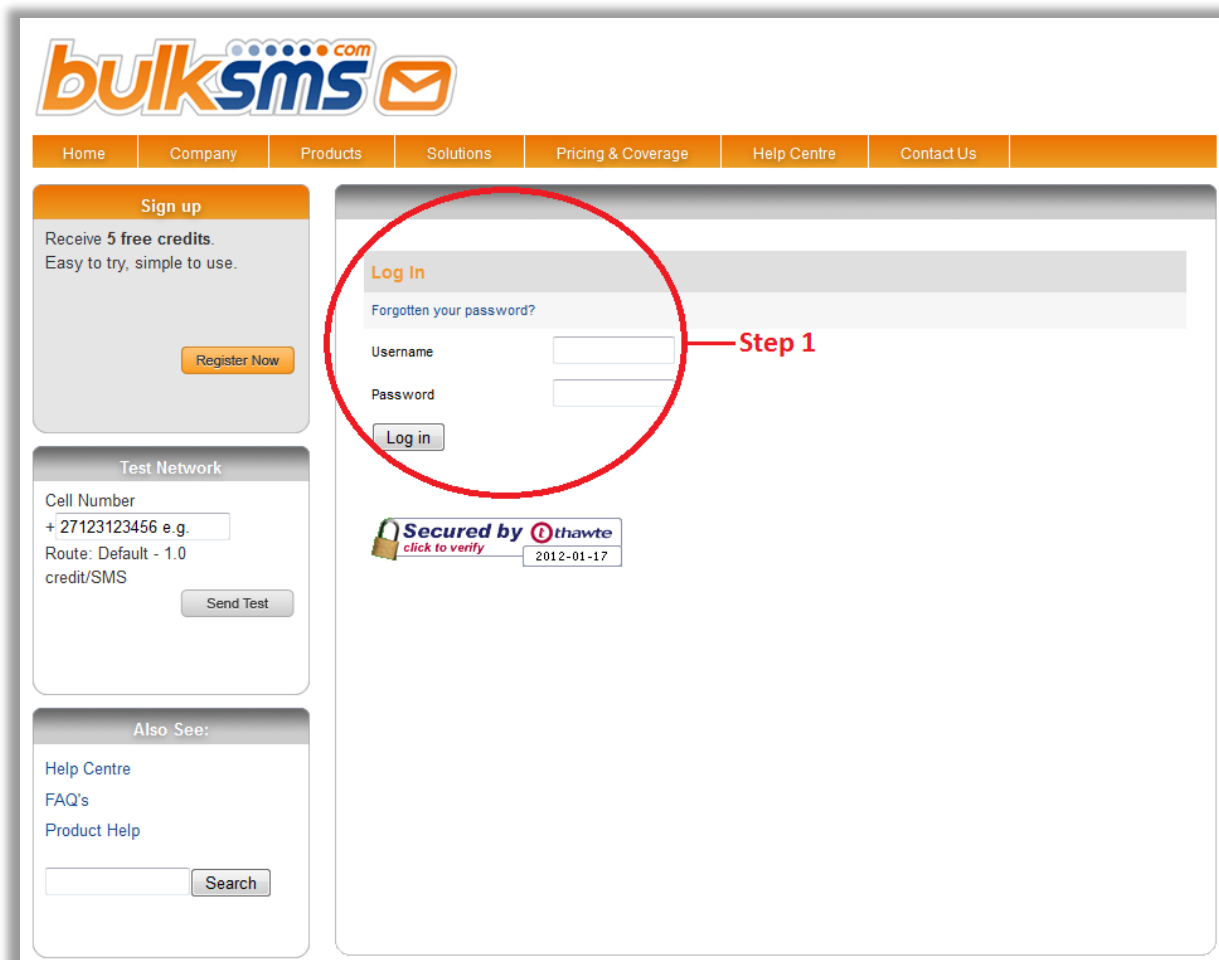

You will simply need to create a recurring payment (FuturePay) agreement on WorldPay that states that you would like BulkSMS to bill your credit card as and when necessary. You are able to specify the maximum amount that can be billed per credit card per month.

Please note that this system is currently only available for credit card purchases.

Creating the FuturePay agreement on WorldPay

In order to create the FuturePay agreement on WorldPay, please follow the steps below:

Step 1: Log in to your BulkSMS user account.

On the left sidebar, there is a 'Feedback' section with a 'Feedback' button, an 'Also See' section with links to Help Centre, FAQ's, and Product Help, and a 'Buy Credits' section with a 'Buy Now' button. The main content area is titled 'WorldPay FuturePay Authorisation' and contains the following text: 'Goto: My Account Buy credits', 'This will authorise BulkSMS.com to bill your credit card automatically via WorldPay. Your credit card details will never be exposed to us.', and 'Monthly purchase limit: ZAR 1000'. A red circle highlights the '1000' in the input field, labeled 'Step 3'.
